Agency:		
	Walid Atmar & Jules Meijer	FME   Binnenklimaat Nederland

### Agenda:

AGENDA ITEMS
<b>1. OPENING AND DETERMINATION AGENDA</b>
Dirk opens the meeting, no additions to the meeting.
<b>2. DETERMINATION NOTES/ACTION LIST OF PREVIOUS MEETING</b>
Most will be covered at 4., no other things.
<b>3. INCOMING ITEMS AND ANNOUNCEMENTS</b>
<p><b>3.1 Launch New Website Binnenklimaat Nederland</b></p> <p>Jules explains the new website and it's new features. Peter asks about a Sharepoint environment and Jules indicates that the Intranet ("Inloggen") part on the website can serve for that. If someone hasn't gotten an account yet, then you can e-mail <a href="mailto:info@binnenklimaatnederland.nl">info@binnenklimaatnederland.nl</a></p> <p>Jules gives a showcase of the website by the shared screen and shows some of it's new features, including the intranet ("inloggen") environment.</p> <ul style="list-style-type: none"> <li>New website: <a href="https://www.binnenklimaatnederland.nl/">https://www.binnenklimaatnederland.nl/</a></li> </ul>
<b>4. GENERAL UPDATES AIR FILTERS &amp; PUBLICATIONS/STANDARDS</b>
<p><b>4.1 Factsheet Air Filters</b></p> <p>Discussion goes into the Eurovent publication, which has been released recently. Peter indicates that it could be translated in Dutch and that this would be very useful.</p>

It also depends on the application, light or heavy application. Dirk summarized and asks about what we want to decide to do. We could make a separate publication. Peter indicates that all content is already in sight.

Peter shares the screen with the attachment 2. about Filter Recommendations from Eurovent. Peter goes deeper through the document and explains some of its components. The document will already be translated into Spanish, German, Turkish, French?, that was indicated in an Eurovent meeting that occurred two days ago.

Frans also thinks it's better to have separate documents.

Johan asks if it's allowed by Eurovent to Dutch, and Peter says they even recommend it. Then afterwards we can give it to them. Only the text would be required, the layout would be done by Eurovent.

Peter says Eurovent also has a similar file for particle filters. Peters main focus is if we can still reach the people with it, or whether the people would just go to Eurovent.

Dirk Heimans ask what the disadvantage for making a Dutch version, people say there aren't many disadvantages. But if Eurovent does it, we don't have to do it. Translation has the preference over an own book. Peter can contact Andrea about what format she wants to have. Peter can do the translation. Dirk Heimans asks if the translated file can be first shared in the group and Peter agrees.

Dirk Noordmans summarizes it: Peter approaches Andrea first and works on the translation. Then sends it towards the group.

#### **4.2 Campaign PvE Healthy Offices**

Jules explains the pilot campaign that was run in order to promote the PvE Healthy Offices. A pilot marketing campaign was undertaken to create more exposure and increase awareness about the products we have available at Binnenklimaattechniek.

Peter also talks about a previous campaign from 2023 called 'Air is Food'. Peter and Yanbin elaborate a bit further about that previous campaign. It was a campaign for the importance of clean air.

#### **4.3 CFI Update**

Dirk Noordmans indicates that this point is not so relevant anymore, since they are in a different segment. No further action on this point.

#### **4.4 Dutch Publication (Peter & Frans)**

See 4.1

#### **4.5 Update Eurovent draft**

See 4.1.

#### **4.6 Update ROVC Meeting**

An elaboration is given by Jules first and later on more by Dirk. The meeting was about creating a new course about Air Filters, or to add a part about Air Filters in an existing course. The preference was for the second option, and there are already some existing courses that include some parts

about air filters. Dirk also talks about the theme night about air filters, to see if there is enough interest for air filters. Jules will send an email to Nico about the status.

Peter explains some more about his learning plan, Frans thinks it's very well written. Generally, people think it is a good idea to see about the theme night.

Johan talks about different filters and if they are available at the ROVC, which is not the case but could be delivered by us if necessary. He also talks about possibly having different course parts split for different filters.

#### **4.7 Update Learning Plan**

Only is relevant if there is room at ROVC for the part of the course. We need to wait for that first.

### **5. DISCUSS ACTIONS AND ACTION OWNERS**

See below under 'Action list'.

### **6. DATE NEXT MEETING**

Meeting on Friday the 3<sup>rd</sup> of October 2025 from 10:00-12:00 at TROX Netherlands.

That is better timings, since it is after the Eurovent meeting from 24<sup>th</sup>-26<sup>th</sup> of September. The meeting can be held at Trox Nederland says Johan.

### **7. FINAL QUESTION ROUND AND CLOSING**

Frans asks about EPD's, and Jannette Levels has been approached but further Jules doesn't know more about it. Yanbin and Peter also talk about the EPD's and the calculations. The discussion continues about the EPD's and some developments.

Frans also shows a publicly available EPD for a Camfil bag filter, Peter and Johan discuss more about them and the complications of doing all those calculations.

Dirk Noordmans goes formally around the table for the question round. Peter would like to add PCR's to the agenda for the next meeting PCR's.

### **Action list:**

<b>Action points:</b>	<b>Who:</b>	<b>When:</b>
Peter contacts Andrea about the format for the Dutch translation.	Peter	
Send Nico an email about the Learning Plan and air filters in an existing course	Jules	
Send invite next meeting	Secretariate
